

Asset Servicing & Analytics in Lithuania

Let's Meet Your Business Needs

With multilingual and analytically savvy talent that is supported by exceptional infrastructure, it's no wonder why Lithuania became a hotspot destination in CEE for outsourcing sophisticated business services.

“
From the outset I was impressed by how hungry and eager to develop professionally Lithuanians are. They're also very loyal and easy to manage. Relocating the full scope of my fund activities – front to back office - from Norway to Lithuania was the best business decision I've ever made.”

Stig Myrseth,
President and CEO at Dovre Forvaltning
