

Oil & Gas in Lithuania: Your Supplier Network

Setting-up in Lithuania means enriching your network of productivity-driven partners and a focus on technical excellence in the areas of:

“Lithuania has a high-class mechanical manufacturing, very fitted for our needs, at very reasonable prices and super-fast delivery (24 hour operation possible). Moreover, it has favorable tax incentives based on our investment needs.”

*Atle Hjertenæs,
President and CEO at Wins*

1.

Metal fabrication

2.

Electronics manufacturing

3.

Engineering

COMPETENCIES:

CNC Machining: Turning, Milling, Grinding, Polishing, Boring, big-size machining, drilling.

Shipbuilding: ship repair & conversion, ship building, stevedoring, large high-complexity metal structures, prime and cut steel sheets and profiles, sandblasting.

Metal processing: welding ARC/MIG/MAG/TIG/SAW, laser, water, plasma and gas cutting, assembly, fabrication of piping structures, galvanization, surface treatment and painting.

Production & prototyping: High complexity, low-volume production, Box Build & HLA assembly, cable harnessing; consistent A/B prototypes, DFX review;

Component Engineering: component lifecycle analysis and obsolescence management;

Test Development: Functional Test SW, Hardware, Boundary Scan, In-circuit, Environmental

Complete design & engineering:

HVAC design and engineering; ISO sketches for pipes; Strength calculations including FEM analysis; Stability calculations and inclining experiments; nesting, lofting and steel cutting files; 3D modelling and rendering; Sea fastening calculations and schemes; Projects supervision, management and consulting.

CLIENTS:

Fiskerstrand, MacGregor, Momek, Metso, Premator, Airbus, Boeing, BMW, Audi, Volkswagen, ABB, VDL, Andritz.

Volvo, Bombardier, Husqvarna, SAAB Transpodertech, D/S NORDEEN A/S, Teltech, Avinor AS

Statoil, BP, Shell, Orlen, Fortum, Mars, Mercuria Group, Oiltanking, EDF Energy

STANDARD CERTIFICATES:

Norsok, Achilles JQS, DNV GL, ISO 14001, ISO 9001, OHSAS 18001
